To whom it may concern,

I am writing to express my interest in applying for an On-the-Job Training (OJT) position at your company. I am currently a Bachelor of Science in Information Systems student at De La Salle-College of Saint Benilde and will be available for internship opportunities beginning August/September 2026.

Throughout my academic journey, I have consistently demonstrated strong leadership, technical competence, and dedication to producing high-quality work. I served as Lead Developer and Project Manager for multiple capstone-related subjects, leading development teams, coordinating with clients, and ensuring project deliverables were completed on time and met requirements. My efforts contributed to successful project outcomes while strengthening my skills in communication, project management, and software development.

My technical background includes experience with C#/.NET, ASP.NET Core, Blazor, Python, Django, SQL Server, PostgreSQL, Kotlin, Java, Docker, AWS cloud hosting, JavaScript, HTML, CSS, GitHub, Power BI, and other development tools. One of my notable projects is Vendicity, a cloud-hosted SME business management system that incorporates multi-role authentication, product management, analytics, and modern web technologies.

In addition to my technical experience, I have maintained strong academic performance, earning multiple Dean's List distinctions, including three consecutive First Honors recognitions. These achievements reflect my commitment to excellence, discipline, and continuous learning. I am eager to contribute my skills while gaining valuable industry experience through your internship program. I would welcome the opportunity to discuss how my background and enthusiasm for software development can benefit your organization.

Thank you for your time and consideration. I look forward to the opportunity to speak with you further.

Yours sincerely,

Christian Merano
